

SOL Funnel Prompt Library

Plug-and-play prompts for shadow operators to build client funnels in Claude.

How to use these prompts

1. Make sure your client's Claude project has their **offer details, ICP, brand info, and any past copy** uploaded.
2. Copy the prompt for the funnel type you need.
3. Fill in the few inputs at the top (reference images, URLs, embeds).
4. Paste into the project. Claude will ask follow-up questions if anything's missing.
5. Output: full Netlify-ready zip with every page, supporting pages, UTM tracking, and webhook/embed wiring.

PROMPT 1 — VSL FUNNEL WITH OPTIN (3 pages)

None

Before you start, I need a few things from you. If you don't give me one, ask me before building:

1. REFERENCE IMAGES – visual style I want the funnel to match (attach 1–3 screenshots)
2. BRAND COLORS – background color and 2 accent colors (or tell me to pick)
3. VSL EMBED CODE – Vidalytics or Wistia embed code for the main VSL (paste full `<script>` or `iframe` tag)
4. ZAPIER WEBHOOK URL – where the optin form posts to ([https://hooks.zapier.com/...](https://hooks.zapier.com/))
5. TYPEFORM EMBED – the application/booking Typeform ID or full embed code
6. CUSTOM URLS – if you want specific paths for each page (e.g. `/watch`, `/apply`, `/confirmed`), give them to me. Otherwise I'll use defaults: `/`, `/vsl`, `/booked`

Use the offer details, ICP, and brand info already attached to this project to write all copy. Match the tone, angles, and proof points that fit this specific client.

BUILD A 3-PAGE VSL FUNNEL WITH OPTIN:

PAGE 1 – OPTIN PAGE (default homepage at /)

- Headline + subheadline targeting the ICP's #1 pain or desire
- Locked VSL thumbnail (uses the Vidalytics/Wistia embed but hidden behind a click gate)
- When user clicks the thumbnail OR a "watch now" CTA, an optin modal opens asking for: First Name, Email, Phone Number
- On submit: POST form data to the Zapier webhook URL (include all fields + page URL + timestamp + all UTM params from the current URL: utm_source, utm_medium, utm_campaign, utm_term, utm_content, fbclid, gclid)
- After successful POST, redirect to Page 2 with UTMs appended to the URL
- Urgency element near the VSL (scarcity/deadline framing relevant to the offer)
- Footer with supporting page links

PAGE 2 – VSL PAGE (at /vsl)

- Headline confirming they unlocked the training, hint at what's inside
- Embedded VSL (use the Vidalytics/Wistia embed code provided – NOT a thumbnail, the real player)
- Below the VSL: the Typeform application embed (full width, dark theme)
- Pass all UTM parameters from the page URL into the Typeform as hidden fields (use Typeform's URL parameter passing: ?utm_source=xxx&utm_medium=xxx etc.)
- Below the Typeform: 4-6 client result cards (placeholders for Wistia testimonial videos + image placeholders for screenshots). Each card has: revenue/result number, name, 1-line description
- Footer with supporting page links

PAGE 3 – POST-BOOKING / NEXT STEPS PAGE (at /booked)

- Headline confirming the call is booked
- Embedded VSL (use the same embed code OR ask me if there's a separate pre-call briefing video)
- "What happens next" section with 3-5 numbered steps as visual cards/graphics (NOT plain text). Steps should cover:
 - Look out for an email from [ask me what support email to use]
 - Whitelist that email (include a mock inbox graphic showing the From address)
 - Add the call to their calendar
 - What to prepare/bring to the call
 - What to do until the call (watch X video, do Y exercise)
- Objection-handling section: 3-4 short video placeholders (Wistia) addressing the top objections from the ICP attached to the project (pull these from the ICP doc – don't make them up)
- Client results section: 4-6 cards (Wistia video placeholders + image placeholders)
- Footer with supporting page links

SUPPORTING PAGES (in footer of all 3 pages):

- /privacy → Privacy Policy
- /terms → Terms of Service
- /income-disclaimer → Income Disclaimer (write copy that matches this specific offer's niche and claim style – pull from the offer details in the project)

FOOTER REQUIREMENTS ON EVERY PAGE:

- Earnings disclaimer text
- "Not affiliated with Facebook, YouTube, or Google" disclosure
- Copyright line
- Links to all 3 supporting pages

TECHNICAL REQUIREMENTS:

- Pure HTML/CSS/JS, no frameworks. Netlify-ready.
- Include a _redirects file mapping pretty URLs to .html files
- UTM capture script in <head> of every page: parse URL params on load, store in sessionStorage, append to all internal links and form submissions
- Mobile responsive
- Use the brand colors I gave you (or that you chose)
- Match the reference image style I attached

DELIVERABLE:

Give me the full set of files in a zip I can drag into Netlify. Include a README with: where to swap the webhook URL, where to swap the VSL embed, where to swap the Typeform, and the file structure.

If you're missing ANY of the 6 inputs at the top, ask me before building. If anything about the offer or ICP is unclear from the project files, ask me before writing copy.

PROMPT 2 — VSL FUNNEL WITHOUT OPTIN (2 pages)

None

Before you start, I need a few things from you. If you don't give me one, ask me before building:

1. REFERENCE IMAGES – visual style I want the funnel to match (attach 1–3 screenshots)
2. BRAND COLORS – background color and 2 accent colors (or tell me to pick)
3. VSL EMBED CODE – Vidalytics or Wistia embed code (paste full <script> or iframe tag)
4. TYPEFORM EMBED – the application/booking Typeform ID or full embed code
5. CUSTOM URLS – if you want specific paths, give them to me. Otherwise I'll use defaults: /, /booked

Use the offer details, ICP, and brand info already attached to this project to write all copy.

BUILD A 2-PAGE VSL FUNNEL (NO OPTIN):

PAGE 1 – VSL PAGE (default homepage at /)

- Headline + subheadline targeting the ICP's #1 pain or desire
- Embedded VSL (use the Vidalytics/Wistia embed code provided – the real player, not a locked thumbnail)
- Below the VSL: the Typeform application embed (full width, dark theme)
- Pass all UTM parameters from the page URL into the Typeform as hidden fields (?utm_source=xxx&utm_medium=xxx etc.)
- Below the Typeform: 4–6 client result cards (Wistia video placeholders + image placeholders). Each card: revenue/result number, name, 1-line description
- Urgency element (scarcity/deadline framing relevant to the offer)
- Footer with supporting page links

PAGE 2 – POST-BOOKING / NEXT STEPS PAGE (at /booked)

- Headline confirming the call is booked
- Embedded VSL (same code OR ask me if there's a separate pre-call briefing video)
- "What happens next" section with 3–5 numbered steps as visual cards/graphics.

Cover:

- Look out for an email from [ask me what support email to use]
- Whitelist that email (include mock inbox graphic with From address)
- Add the call to their calendar
- What to prepare/bring
- What to do until the call
- Objection-handling section: 3–4 Wistia video placeholders pulling top objections from the ICP doc in the project
- Client results section: 4–6 cards (Wistia placeholders + image placeholders)
- Footer with supporting page links

SUPPORTING PAGES (in footer of both pages):

- /privacy → Privacy Policy
- /terms → Terms of Service
- /income-disclaimer → Income Disclaimer (match the offer's niche and claim style)

FOOTER ON EVERY PAGE:

- Earnings disclaimer
- "Not affiliated with Facebook, YouTube, or Google" disclosure
- Copyright line
- Links to all 3 supporting pages

TECHNICAL:

- Pure HTML/CSS/JS, Netlify-ready
- _redirects file for pretty URLs

- UTM capture script in <head>: parse on load, store in sessionStorage, append to all internal links and Typeform iframe src
- Mobile responsive
- Use brand colors and match reference images

DELIVERABLE:

Full zip for Netlify + README with swap instructions for the embed and Typeform.

If you're missing any input, ask before building. If offer/ICP details are unclear, ask before writing copy.

PROMPT 3 — WEBINAR FUNNEL (2 pages)

None

Before you start, I need a few things from you. If you don't give me one, ask me before building:

1. REFERENCE IMAGES – visual style (1-3 screenshots)
2. BRAND COLORS – background + 2 accent colors (or tell me to pick)
3. WEBINAR PLATFORM URL – the link the webinar actually runs on (Zoom, WebinarJam, EverWebinar, StealthSeminar, etc.)
4. WEBINAR DATE/TIME – fixed date/time, or "evergreen on-demand", or "live every Tuesday at X"
5. ZAPIER WEBHOOK URL – where registration data posts ([https://hooks.zapier.com/...](https://hooks.zapier.com/))
6. OPTIONAL: TEASER VIDEO EMBED – Vidalytics/Wistia code if there's a teaser video on the registration page (otherwise skip)
7. CUSTOM URLS – defaults: /, /confirmed

Use the offer details, ICP, and brand info already attached to this project.

BUILD A 2-PAGE WEBINAR FUNNEL:

PAGE 1 – REGISTRATION PAGE (default homepage at /)

- Webinar-style headline: name the outcome + name the mechanism + name the deadline
- Subheadline calling out the ICP and the 1-3 things they'll learn
- If teaser video was provided: embed it prominently above the form. If not, skip the video block

- Registration form (visible on page, not behind a modal – webinar funnels convert better with the form upfront):

- First Name
 - Email
 - Phone Number
 - [optional field: ask me if I want to add anything like "biggest struggle"]
- Webinar date/time displayed prominently (if evergreen, show "Next session starting in [countdown timer]" – use JS to count down to nearest top-of-hour or interval)
- 3-4 bullet points: what they'll learn / who it's for / why now
- Below the form: trust elements – short ICP-matched testimonial quotes (text only, no video)
- On submit: POST to Zapier webhook with all fields + all UTM params (utm_source, utm_medium, utm_campaign, utm_term, utm_content, fbclid, gclid) + page URL + timestamp
- After successful POST, redirect to Page 2 with UTMs appended
- Footer with supporting page links

PAGE 2 – CONFIRMATION PAGE (at /confirmed)

- Headline confirming they're registered + webinar date/time displayed again
- Big "Add to Calendar" buttons (Google, Apple, Outlook – use standard calendar URL formats with the webinar title and time pre-filled)
- "What happens next" section with 3 steps as visual cards:
 - Look out for an email from [ask me what support email to use]
 - Whitelist that email (mock inbox graphic with From address)
 - Show up 5 min early on a desktop in a quiet space
- "Join the webinar" button linking to the webinar platform URL (show it as the main CTA above the fold on this page too)
- Pre-webinar warm-up section: 1-2 short Wistia video placeholders (e.g., "watch this before the webinar" or testimonial)
- Footer with supporting page links

SUPPORTING PAGES (in footer of both pages):

- /privacy → Privacy Policy
- /terms → Terms of Service
- /income-disclaimer → Income Disclaimer (match the offer's niche)

FOOTER ON EVERY PAGE:

- Earnings disclaimer
- "Not affiliated with Facebook, YouTube, or Google" disclosure
- Copyright line
- Links to all 3 supporting pages

TECHNICAL:

- Pure HTML/CSS/JS, Netlify-ready
- _redirects file for pretty URLs
- UTM capture script in <head>: parse on load, store in sessionStorage, append to all internal links and the webhook payload

- Countdown timer in vanilla JS (no library)
- Mobile responsive
- Brand colors + reference image style

DELIVERABLE:

Zip for Netlify + README with swap instructions for the webhook, the webinar URL, and the date/time logic.

If you're missing any input, ask. If offer/ICP details are unclear, ask before writing copy.

PROMPT 4 — WAITLIST FUNNEL (1 page)

None

Before you start, I need a few things from you. If you don't give me one, ask me before building:

1. REFERENCE IMAGES – visual style (1-3 screenshots)
2. BRAND COLORS – background + 2 accent colors (or tell me to pick)
3. TYPEFORM EMBED – the waitlist Typeform ID or full embed code
4. OPTIONAL: VSL EMBED – Vidalytics/Wistia code if you want a video on the page (otherwise skip)
5. CUSTOM URL – default: /

Use the offer details, ICP, and brand info already attached to this project.

BUILD A 1-PAGE WAITLIST FUNNEL:

PAGE 1 – WAITLIST PAGE (default homepage at /)

- Headline that creates anticipation: name the product/program + frame it as launching soon or limited access
- Subheadline calling out the ICP and the transformation
- If VSL embed was provided: embed the video prominently above the Typeform. If not, skip the video block
- Typeform waitlist embed (full width, dark theme)
- Pass all UTM parameters from the page URL into the Typeform as hidden fields (?utm_source=xxx&utm_medium=xxx etc.)
- 3-4 bullet points or short paragraph: who it's for, what's inside, what makes it different

- Optional below-the-fold trust block: 2-3 short text testimonials from the ICP doc
- Footer with supporting page links

SUPPORTING PAGES (in footer):

- /privacy → Privacy Policy
- /terms → Terms of Service
- /income-disclaimer → Income Disclaimer (match the offer's niche)

FOOTER:

- Earnings disclaimer
- "Not affiliated with Facebook, YouTube, or Google" disclosure
- Copyright line
- Links to all 3 supporting pages

TECHNICAL:

- Pure HTML/CSS/JS, Netlify-ready
- _redirects file for pretty URLs
- UTM capture script in <head>: parse on load, store in sessionStorage, append to the Typeform iframe src
- Mobile responsive
- Brand colors + reference image style

DELIVERABLE:

Zip for Netlify + README with swap instructions for the Typeform.

If you're missing any input, ask. If offer/ICP details are unclear, ask before writing copy.

PROMPT 5 — SALES PAGE (1 page)

None

Before you start, I need a few things from you. If you don't give me one, ask me before building:

1. REFERENCE IMAGES – visual style (1-3 screenshots)
2. BRAND COLORS – background + 2 accent colors (or tell me to pick)
3. CHECKOUT URL – full Whop or Stripe checkout link the CTA buttons go to
4. PRICE – the headline price + any payment plan options + any guarantee terms
5. VSL EMBED (optional but recommended) – Vidalytics/Wistia code if there's a sales VSL at the top
6. CUSTOM URL – default: /

Use the offer details, ICP, brand info, AND pricing/guarantee terms already attached to this project. If pricing isn't in the project, ask me.

BUILD A LONG-FORM SALES PAGE (1 page):

Structure (in this order):

1. HERO BLOCK

- Big headline: outcome + mechanism + timeframe
- Subheadline: who it's for + what makes this different
- If VSL embed provided: video above the fold
- Primary CTA button linking to the checkout URL
- Trust strip: "as featured in" placeholders OR 3-4 quick stats (students, results, years, etc.)

2. PROBLEM SECTION

- Name the pain the ICP feels right now (pull from ICP doc – don't generic this)
- 3-4 bullets describing the symptoms of being stuck

3. AGITATION / WHY OTHER SOLUTIONS FAIL

- Why the obvious alternatives don't work for this ICP
- Pull from "what they've tried before" if it's in the ICP doc

4. INTRODUCING THE OFFER

- Name the offer, the promise, and the mechanism
- 1 short paragraph + secondary CTA button

5. WHAT'S INSIDE / DELIVERABLES

- Visual grid of 4-8 modules/components/bonuses with icons or images (placeholders OK)
- Each card: name, 1-line description, \$ value if it's a stacked offer

6. PROOF SECTION

- 4-6 client result cards (Wistia video placeholders for testimonial videos + image placeholders for screenshots)
- Each card: revenue/result number, name, 1-line description
- 1-2 case study callouts pulled from the offer details (named students with specific results)

7. WHO THIS IS FOR / NOT FOR

- Two short columns: "This is for you if..." / "This is NOT for you if..."

8. GUARANTEE

- Display the guarantee terms from the project (or what I gave you)

- Make it visually distinct – bordered card, "official" feeling

9. PRICING / OFFER STACK

- List each deliverable again with \$ value, totaled
- Then the actual price, struck-through if discounted
- Payment plan options if provided
- Primary CTA button → checkout URL

10. FAQ

- 6–8 questions pulled from the top objections in the ICP doc (don't make them up)
- Click-to-expand answers

11. FINAL CTA BLOCK

- Recap the promise in 2 sentences
- Big CTA button → checkout URL
- Small reassurance line about the guarantee

12. FOOTER with supporting page links

EVERY CTA BUTTON on the page links to the same checkout URL. Append UTM parameters from the current page URL to the checkout URL so attribution carries through.

SUPPORTING PAGES (in footer):

- /privacy → Privacy Policy
- /terms → Terms of Service
- /income-disclaimer → Income Disclaimer (match the offer's niche)

FOOTER:

- Earnings disclaimer
- "Not affiliated with Facebook, YouTube, or Google" disclosure
- Copyright line
- Links to all 3 supporting pages

TECHNICAL:

- Pure HTML/CSS/JS, Netlify-ready
- _redirects file for pretty URLs
- UTM capture script in <head>: parse on load, store in sessionStorage, append to all checkout button URLs (so Whop/Stripe sees the UTMs)
- Mobile responsive
- Brand colors + reference image style

DELIVERABLE:

Zip for Netlify + README with swap instructions for the checkout URL and pricing.

If you're missing any input, ask. If offer/ICP/pricing details are unclear, ask before writing copy.

PROMPT 6 — ONBOARDING PAGE (1 page)

None

Before you start, I need a few things from you. If you don't give me one, ask me before building:

1. REFERENCE IMAGES – visual style (1-3 screenshots)
2. BRAND COLORS – background + 2 accent colors (or tell me to pick)
3. WELCOME VIDEO EMBED – Vidalytics or Wistia embed code for the welcome video
4. ONBOARDING CALL BOOKING URL – Calendly, iClosed, or Typeform link for booking the 1:1 onboarding call
5. WHOP/COURSE LIBRARY URL – direct link to the first course video or the main library entry
6. ONBOARDING SURVEY TYPEFORM – Typeform ID or full embed code for the intake survey
7. CUSTOM URL – default: /

Use the offer details, ICP, and brand info already attached to this project.

BUILD A 1-PAGE ONBOARDING PAGE:

PAGE – ONBOARDING (default homepage at /)

- Personal headline welcoming the new student by name (use a {{firstname}} merge variable placeholder so it can be populated from URL params or email link)
- Subheadline: "Here's exactly what to do in the next 24 hours" or similar
- Welcome video embedded prominently (Vidalytics/Wistia embed)
- Below the video: "Your 3 next steps" as 3 visual cards/blocks (NOT plain text), each numbered, each with a clear CTA button:

STEP 1 – Book Your Onboarding Call

- Short description: what the call covers, how long, what to prep
- CTA button → Onboarding Call Booking URL

STEP 2 – Watch The First Module

- Short description: what's covered, why it matters as the first thing
- CTA button → Whop/Course Library URL

STEP 3 – Complete Your Onboarding Survey

- Short description: what info you're collecting and why (so the call is productive)
- CTA button → Onboarding Survey Typeform (or embed the Typeform inline below the 3 cards – ask me which I prefer)

- If embedding: pass all UTM parameters from the page URL into the Typeform as hidden fields

- Optional below the 3 steps: "What to expect in your first week" section with a simple checklist or timeline
- Optional support section: how to reach support, expected response time, link to community/Slack/Telegram (ask me if a community link should be included)
- Footer with supporting page links

SUPPORTING PAGES (in footer):

- /privacy → Privacy Policy
- /terms → Terms of Service
- /income-disclaimer → Income Disclaimer (match the offer's niche)

FOOTER:

- Earnings disclaimer
- "Not affiliated with Facebook, YouTube, or Google" disclosure
- Copyright line
- Links to all 3 supporting pages

TECHNICAL:

- Pure HTML/CSS/JS, Netlify-ready
- _redirects file for pretty URLs
- UTM capture script in <head>: parse on load, store in sessionStorage, append to internal links and the Typeform iframe src
- Read {{firstname}} from URL parameter ?name=Alex and inject into the headline; fallback to "there" if not provided
- Mobile responsive
- Brand colors + reference image style

DELIVERABLE:

Zip for Netlify + README with swap instructions for the welcome video, booking link, course library link, and survey.

If you're missing any input, ask. If offer/ICP details are unclear, ask before writing copy.
